PROFILE

TECHNICAL DESIGN

- Seat: steel inner frame
- Belt spring system
- Seat in polyurethane foam, "density" 60 kg/m³
- Soft foam overlay
- Back: steel inner frame
- Back upholstery in cold moulded polyurethane foam, "density" 60 kg/m³
- Base: steel round tubular frame; powder-coated in RAL 9005 jet black

The data of "density" can vary in a range of +/- 10%.

INFORMATION

- Repeat and patterned fabrics cannot be processed with this range.
- The range is only suitable for velour covers to a limited extent. The fell seams and piping can lead to lines in the pile.
- There are more dividing seams in leather covers than in fabric covers. Detailed information about this can be found in the Info section.
